

The Health Professions Partial Academic Pathway program offers students who finish an ACLM-approved course within a university health professions program the opportunity to satisfy part of the pre-requisites for ACLM certification.

Benefits:

University:

- Recognized on the ACLM website
- Marketing tool
- No cost to participate

Faculty:

- Multiple resources available
- Networking with other faculty from around the country
- Opportunity to teach evidence-based LM content within a course

Students:

- Receive content within their course related to LM
- Are able to receive a complimentary "conference waiver" once they complete an ACLM approved course

Specifications:

- The current pathway for certification includes a requirement for 2 hours live CME/CE
- Successfully completing an approved course will negate the need for students to complete the 20 hours live CME/CE
- This reduces time, removes travel, and lowers associated costs that may be barriers for students who are interested in LM certification
- This waiver is good for three years post-graduation

Prerequisites for Certification:

Specific to health professions students

- ~~20 hours of live CME~~ → Academic Pathway Waiver:
- 30 hours of online/live CME ACLM-approved University Course
